PRESS RELEASE
Date August 4th, 2008
For Immediate Release

QSA 102 Full *FAO*[®] replaces the National Guard QSA 102

QuickSilver Analytics, Inc. has recently made updates and changes to their CBRE Sampling Kits including the QSA 102, QSA 600TC and the QSA 800HC. QuickSilver continually strives to include the best available and technologically advanced products in their Sampling Kits while still providing the only sampling kits on the market that contain chemical sampling tools that are cleaned or screened for over 10 chemical warfare-related compounds and a representative list of semi-volatile compounds (TICS/TIMS).

Since the Sampling Kits have been updated in both the National Guard and Full *FAO*[®], we will be discontinuing the National Guard Version October 1, 2008.

All Sampling kits are made under ISO 9001:2000 certification. Custom kits are always available upon request.

Contact Eric Courtright or Chris Johnson for more information on the CBRE Sampling Kits at 1-877-725-7587 or visit our website at www.qckslvr.com.
